Advance Manifest System (AMS) With Indian Customs

Hans Infomatic's AMS is an automated system that facilities Airlines and Freight Consolidators to file shipment data electronically to ICEGATE by including digital signature directly from system. The complete system is built as per the specifications of Indian Customs and conforms to all legal and compliance standards.

Hans AMS currently supports the process of filling Import/Export General Manifest (IGM/EGM), Air Consol Manifest (CGM) & Sea Consol manifest electronically.

Key features
- Web based system to access from anywhere 24X7
- User friendly and simple data keying facility
- File directly from system using digital signature to ICEGATE
- Facility to automate data processing in system through XML, Text File, Excel and IATA messaging like FHL, FWB & FFM.
- Facility to generate Delivery Order
- File amendments online to Customs
- MIS Reports
- View positive & negative acknowledgments in the system
