Managing a fleet and optimizing it for maximum profits and productivity is a challenge in the new age of doing business. As an operator, you are continuously thinking of ways and means to:

- Optimize fleet utilization
- Track and trace vehicles
- Maximize uptime of vehicles
- Utilize workforce effectively and efficiently
- Improve customer satisfaction
- Increase revenue and profits

WiseFleet is developed by pioneers and leaders of software in Logistics management in India, Hans Infomatics. It is a fully automated, end-to-end web based solution which completely manages your fleet. While most other software only allow for planning and execution of physical movement of the fleet, WiseFleet provides complete control of operations across the supply chain and gives power in your hand in smooth running of your business.

**Features**

- Web based, access from anywhere in the world
- Multi location capability
- Adaptable to any industry
- Fully scalable
- User friendly interface
- Minimum data entry
- Low training requirement
- Minimum implementation time
- Inbuilt reporting and analysis
