WiseCargo is a 360 degree turnkey solution, designed to facilitate integrated cargo operations. The solution can be used for all operations for cargo handling at Air, Sea and Land ports. A single user friendly interface enables easy operations for Cargo Handlers.

WiseCargo's Sea Port module is a comprehensive CFS (Container Freight Station) and ICD (Inland Container Depot) system that efficiently manages every component of ICD/CFSI. Combining the best practices of hands-on operational management with secure, scalable and reliable technologies, the module is proven to improve productivity and throughput while cutting labour costs by significant margins. With real-time inventory management, flexible workflow tools and comprehensive integration, it gives complete visibility and control of all containerised cargo.

WiseCargo's Sea Port module covers all challenges faced by the CFS operator in day to day terminal operation, container inventory and yard management, bonded and non bonded warehousing, back to town processes, maintenance and repair, damage and loss of shipments.

Available on latest Cloud technology, it provides a 24X7 global online access and visibility. Further, the solution is available on various devices, including PC, Tablets, Mobiles and other Hand Held devices giving you a complete control of your operations.

Building Efficient and Effective Operating environment

- Increased work flow efficiency
